

THE ORDER

UNDERLYING THE APPARENT CHAOS;
BY THE LIMITED SET OF MATHEMATICAL RATIOS THAT
APPEAR TO REFLECT THAT ORDER.

Waves & Particles is a trading system with a DNA that explores a very distinctive pattern that emerges in the presence of a natural cyclical behavior in the universe.

After two decades studying ancient history, the secrets of our universe, mathematics and physics, I was able to dissect several systems like Gann, Ichimoku, Vortex Math, Elliot Waves, and many other systems orbiting the depths of cycles in time, to unravel a hidden code behind each of them. Without surprise they ALL share the same original code.

It is about the possibility that emerges and how the law of vibration can be found in a whole range of research disciplines. From cosmology at one end, to quantum physics at the other.

The purpose of this course is that everyone can learn to trade professionally, and have the opportunity to improve their economic situation with the right tools, and the right mindset.

Become a Master of cyclical analysis!

A Master trader is a person who has in-depth knowledge of the markets applying investment, and trading strategies where the odds are in their favor. A place where you don't play randomly. A person that perfectly understands that his strategy has a high probability of success and that is where he focuses all his attention, achieving constant results.

I have created this course so that anyone without knowledge of any market can learn to invest their money and thus have an alternative plan in their lives, a source of extra income. The complicated situations that we are experiencing the need to know how to earn money in a different way than the traditional way. This course is perfect for all those people who want to know the markets in depth and trade quietly without chasing the price, a place where curiosity is present at all times.

The great value of this course is the teaching methodology where theory and practice go together from the beginning of the course. It was carefully crafted so students can easily digest complex subjects, formulas, and proprietary ideas that you won't find anywhere else. Each theoretical lesson has its practical application, in this way we seal the student's learning.

With this we achieve that the student does not collapse from so much theory and does not know how or when to apply it, because you learn by doing. This is how you get real results. In addition to all this, I will tell you that for the course you have a downloadable PDF so that you can print it and have your trading book.

It will be a pleasure for me to be your instructor in this Specialized Trading Course. As a Professional Trader I hope to contribute all my experience in your training process.

1. Price structure: Here the student will learn professional technical analysis, equilibrium, price structure, and pattern recognition. This module is the most important of this course, and the foundation of it.

2. Trading Psychology: Here the student will learn the importance of knowing how to identify and control the emotions that are experienced while trading. A very important knowledge that will help the student to improve their results.

3. Money Management: An essential part of surviving in the markets is proper monetary management. Thanks to monetary management we can protect our capital and make it grow. It allows us to design investment strategies, controlling losses and maximizing profits.

4. Investment systems: The student will learn several investment systems that can be applied by scalping and swing trading. (Gann theories, sacred geometry, Fibonacci, Ichimoku, candlestick patterns theory, formations, among others).

5. You learn by doing: The student has several modules where he will learn to analyze assets in major and minor time frames. In addition, we have hundreds of trading videos available for you to learn, and a private community where we can all discuss ideas, and learn together, it is there where you will be able to realize what trading can do in your life.

THE COURSES

1. Full WP Trading System

- A complete experience on the history of the mathematical structure of the universe, theories, history, to understand the connective structure around us, not only in trading but everything in life.
- Trading psychology, the mindset of a Samurai
- Money management
- Timing cycles, and the IMPORTANT dates of the future
- Trading tools, and formula
- Equilibrium, and price structure
- Full Ichimoku course included
- Gann Tools, and Sacred Geometry
- Patterns, and structure recognition
- Full Lifetime access to the student VIP Lounge on Discord

2. Lite WP Trading System

- Trading psychology, the mindset of a Samurai
- Money management
- Timing cycles, and the IMPORTANT dates of the future
- Trading tools, and formula
- Equilibrium, and price structure
- Gann Tools, and Sacred Geometry
- Patterns, and structure recognition
- Full Lifetime access to the student VIP Lounge on Discord

3. Ichimoku Kinko Hyo

This Ichimoku trading course is designed to get you started using Ichimoku to understand the different cycles, as quickly as possible. Ichimoku is a fantastic tool for amateur or professional traders looking to optimize their workflow and produce great results as traders. You can apply what you learn in this course to your existing workflow, designed to get to the point quickly and clearly.

The training will begin by demonstrating the basics, and the real origins for the indicator, using, and reading the different ideas. The course will cover backup strategies and offer advice so you can trade on a safe environment. From there we will dive deeper into reversals, trend direction, time, signals, key levels, etc.

TESTIMONIALS

“

Hey Mitoshi! I cant thank you enough for what you have shared with me thus far, the course material is nothing short of amazing... And, that's an understatement! The combination of GANN and Ichimokou are not only complimentary to one another, but provide an edge like no other system I have come across. I'm absolutely thrilled our paths have crossed!
TheGANNMAN!

“

The course is one of its kind. The combination of using his strategy combined with solid trading rules will give you the edge you are looking for to reach the highest level of trading. He has helped me improve my trading and give me the confidence to push my trading to the next level. He is the mentor you want to help you along the way in this trading game and I can't thank him enough.

— @bill39373114

“

“The course has totally changed my perspective on how price and time play into the charts for the better. Understanding GANN's and Ichimokou principles are key to being on the right side of a trade.”

— @Matt_M_Jordan

“

In my first class, I can't even count how many times my mind was blown. Joe has opened my mind to a method trading that I never knew was possible. My trading is now more profitable, much less stressful, and fun again!
